

Dr. Reddick is a lifelong mentor to me and I could not have been more grateful to have worked alongside her at the Black Resource Center these past two years. Her contributions to SDSU and Black Resource Center for over twenty years shows her commitment to improving achievement outcomes for all students. It has been an honor learning from Dr. Reddick throughout the years as she is a compassionate, diligent, and profound leader and mentor. Her legacy will continue to inspire the Black community to persist, persevere and never give up! Dr. Reddick will be sincerely missed by myself and the entire SDSU community. We love you, Doc!
